

What's going on in your area

- The fly-tipping along IWADE ROAD is still very much there as of my last visit – this will be the second time I've reported some to the council and third time for others. I've managed to glean a contact for the Environmental Recovery Team to discuss a positive resolution as soon as possible.
- Nuisance vehicles and the associated car meets have been reported near RIDHAM DOCK and the old Sheppey Crossing.
- A Problem-Solving-Package has been created for the entirety of Swale for nuisance vehicles with bespoke actions for each ward. These actions will be bolstered by the Neighbourhood Task Force with considerations for surge days (days of action,) should the need arise. The idea and strategy of these days is for police to swarm a problem area, producing a measurable reduction in crime.

Drop-in surgery

- TBC

Officer

Phil Clemens

Good work story/stories

- Recent visible speed checks were conducted by me and a colleague along SHEPPEY WAY near where the national limit changes to 30 MPH on 25/04/2024 as I had personally witnessed excessive speed earlier in the week. Officers were on the road for 30 minutes. I was pleased to see that road users, at least on this occasion, were mindful of the speed change and slowed their approach into Iwade.
